

Resources

SLOs are expected to be familiar with many boating issues and resources. You should already be very familiar with the Coast Guard and Auxiliary websites. In addition to these two, you should become familiar with the National Association of State Boating Law Administrators (NASBLA) website at <<http://www.nasbla.org/>>. Many interstate boating agreements are reached through the sponsorship of this organization and information about your State Boating Law Administrator is on this site. Many NASBLA subcommittees have active Coast Guard and Auxiliary participation. Additional sites you should explore include:

National Partners

Northern Association of Boating Administrators

State and Local Resources

Here are examples of local reference information that SLOs should gather. This should include all state boating websites, as well as marinas, yacht clubs, Sea Scouts, United States Power Squadrons (USPS), and other associations. The SLO should also include commercial establishments, such as marine supply stores and county boating emergency agencies.
